Hey Allison,

Please find attached the Fair Lawn File Inventory of Docs.

One thing you should know, the Responsible Parties are currently conducting site remedial investigation activities and anything associated with these activities are not going to be found in the attached Inventory file because this information is still under EPA review and evaluation. Once this information is approval by EPA, it becomes part of the public record.

If you have any questions on this inventory feel free to call or email.

Regards

Michael Zeolla
